Message Trom Chairman Zander G

As I reflect on the past year, I'm incredibly proud of the accomplishments of the NC ABC system, and the progress we continue to make in our mission to enhance customer service and find innovative solutions for challenges. As always, I'm grateful for Governor Roy Cooper for providing me the opportunity to lead this great organization, and grateful for Commissioner Karen Stout and Commissioner Norman Mitchell, who have been able to seamlessly handle the business of the Commission while meeting remotely. I'm also happy knowing that our team has grown at the Commission over the past year. But where there have been great successes, there have also been great challenges.

All our lives and daily operations changed during COVID-19. For those who know me, they know how much I cherish the opportunity to speak with people and connect with one another in-person, making this new normal particularly difficult. And we know, the pandemic has been devastating for many ABC permit holders, who are facing unprecedented obstacles and challenges this year.

As a system, we play In the face of these challenges. I am incredibly thankful for the passionate and hard-working team we have at the ABC Commission and in our NC ABC System. I have seen first-hand how the ABC Commission staff have gone above and beyond during these times. Staff have been able to process applications remotely, have worked with permittees to explore options for alcohol sales and service, and have communicated temporary policy changes such as curbside sale of beer and wine to-go. As Executive Orders have provided statewide direction over activities including alcohol sales, the Commission has worked hard

I also want to thank the many others outside our agency who are working tirelessly to assist whenever and wherever they can. This includes the local ABC boards that are implementing public health safety protocols in their stores, or that offered buybacks for mixed beverage customers that were required to close. This also includes distilleries that modified their operations to produce hand sanitizer, or the North

to provide guidance to the public. This work comes in addition to the normal job responsibilities, and they're gracefully accomplishing all of this while balancing the demands

Carolina Beer and Wine Wholesalers who used their trucks and drivers to help support critical supply chains. Last but certainly not least, I want to thank our many law enforcement partners across the state, including Secretary Erik Hooks with the Department of Public Safety and Director Bryan House with North Carolina Alcohol Law Enforcement, who work relentlessly to keep our communities safe. COVID-19 has been a dose of reality in showing us how important we are to one another.

Even in light of the various disruptions in supply chains and in our daily lives, the NC ABC System had another record-setting year with \$1,367,857,493 in total sales at ABC stores. The revenues generated for the General Fund and local municipalities statewide shows how important the ABC system and control model is, particularly at times like these when we need both control and recurring revenue in our communities. As our state's population and the NC ABC system continues to grow, the NC ABC Commission will remain committed to innovation, efficiency, and customer service to ensure we best serve the needs of North Carolinians.

Sincerely,

A.D. Zander Guy, Jr.

As one of the 17 states and jurisdictions in the United States that regulates alcohol through a control system, the NC ABC Commission partners with these fellow control states as a member of the National Alcohol Beverage Control Association (NABCA). Founded in 1938, NABCA provides research, analytics and alcohol regulatory information, and acts as liaison to federal, state and local governments, research groups, public health associations, the media and other organizations impacting alcohol policy. NABCA is managed by its Board of Directors, with a Chairman elected annually by the Board.

StateWays highlighted Chairman Guy's appointment as NABCA Chairman in their summer 2020 issue.

Chairman Zander Guy had the honor of being elected Chairman for NABCA for the current fiscal year. Chairman Guy assumed this leadership role with NABCA early in the onset of the COVID-19 pandemic, but has embraced the challenges and opportunities that have come with it. The value that NABCA provides to its members has been amplified by COVID-19. While the pandemic has affected locations differently, many of the challenges our states and industry face are the same, or have similarities that research, networking, and collaboration with other NABCA members can help solve.

This idea of Sharing Solutions is Chairman Guy's central focus for his NABCA Chairmanship. Chairman Guy and the NC ABC Commission staff continue to work remotely with partners, permittees, industry members, and fellow control states to solve the problems we face now, and the problems we will face in the future.

NABCA Chairmanship

Local ABC Boards

The ABC Commission is only one part of the ABC system in North Carolina and relies heavily on the hard work and customer service provided by the local ABC boards throughout the state.

In July 2019, the Alexander County ABC Board formed, bringing the total number of boards across the state to 171.

This action marked an historic milestone: Alexander County will be the last new ABC board in the North Carolina ABC system, since North Carolina Session Law 2019-182 limits the creation of any future ABC boards, except by merger.

North Carolina's ABC stores, designated as essential operations in Governor Roy Cooper's Executive Orders, adapted to serve the public throughout the COVID-19 pandemic. Starting in March 2020, North Carolina's boards implemented new business approaches that included restricted hours, social distancing, masking requirements and other measures designed to protect the health of the public and store employees. And, despite the challenges presented by the unprecedented global crisis, ABC store sales in the state set new levels with \$1,367,857,493 in total sales for the period from July 1, 2019 through June 30, 2020.

SPECIAL ORDERS

The state of North Carolina lists well over 2,500 spirituous liquor products that are regularly available for ABC boards to purchase. However, customers often request items that are not regularly listed in the state ABC warehouse. Throughout FY20, ABC boards across North Carolina facilitated 10,908 special orders for ABC customers. This was an increase of 78% over FY19. Special orders are an important part of ensuring customers in North Carolina have access to the wide range of spirituous liquor products they want.

TASTINGS IN ABC STORES

In July 2019, lawmakers passed North Carolina

Session Law 2019-182, allowing spirituous liquor special event permittees to conduct spirituous liquor tastings in ABC stores when approved by the local ABC board. Throughout FY20, 918 tasting events were scheduled at ABC stores across

North Carolina.

As the chief regulator for all alcoholic beverages in the state, the ABC Commission meets the demands of a growing state and a rapidly changing market.

ABC Commission staff serve the public in the following areas:

- Administration
- Investigations
- Product Compliance
- Community Outreach
- Legal

- Public Affairs
- Education
- Local ABC Board Support
- Reception

- Human Resources
- Performance Audits
- Record Keeping
- Information Technology
- Permitting

- Rules Coordination
- Inspections
- Price Management
- Training

AUDITS & INVESTIGATIONS

The ABC Commission works diligently to help permitted businesses comply with all the statutes and rules that govern an entity involved in the service or sale of alcohol. Throughout the year, the Audit Section launches thousands of investigations and inspections and conducts full audits of retail locations across the state. In FY2O, Audit staff gave 1,3O9 written warnings and submitted 94 violation reports to the Legal Section for consideration of sanctions against permit holders.

EDUCATION OUTREACH

The Education Outreach Section continued its goal of increasing impact through its training, education, and awareness programs. One key focus continues to be the award-winning Talk it Out campaign, with television, radio, and digital advertising in English and Spanish throughout the state. Throughout the year, the media campaign reminded adults such as parents, coaches, and other responsible adults to engage with the young people in their lives and educate them about the dangers of underage drinking. During FY2O, the campaign increased its statewide ambassador program from eight to ten. These ambassadors are prevention-specialists located strategically throughout North Carolina to assist local ABC Boards or other local partners with education programming.

The Education Outreach Section has also adapted in its delivery of server training programs due to the COVID-19 circumstances. Trainers have adapted to provide this critically important information in a format that still allows for feedback and interaction between the trainer and the participant. Over the course of FY2O, the ABC Commission trained 26,347 delivery personnel, sellers, and servers of alcohol in-person and online.

INFORMATION TECHNOLOGY

The Information Technology (IT) Section continues to ensure the Commission is prepared to meet the needs of our customers and the general public in a rapidly changing environment. With the disruptions caused by COVID-19, the IT Section has worked hard to adapt the Commission's infrastructure and facilitate more ABC Commission business virtually through web conference services, email, and the Commission's website. They've successfully met the increased demand and continue to streamline the ABC Commission's processes.

The IT Section also helped launch the ABC Commission's online training program for individuals delivering beer or wine. This became particularly important following the creation of the Delivery Service ABC Permit in North Carolina Session Law 2019–182. The content of the training program was designed by the Education Outreach Section and other relevant stakeholders.

PERMITTING & PRODUCT COMPLIANCE

The Permit Section assists applicants ranging from mom-and-pop shops all the way to mega-corporations with many different types of permit applications. With great attention to detail, this section reviews and processes all permit applications for retail (restaurants, convenience stores, etc.), one-time (weddings or non-profit events), and commercial (breweries, wholesalers, etc.) activities. In FY20 the ABC Commission issued 5,202 new permits while maintaining more than 67,502 permanent permits, generating approximately \$22 million for the state's General Fund.

North Carolina law requires that all alcoholic beverage products be approved by the ABC Commission prior to being sold. Spirituous liquor products are approved by the Commission administration, while malt-beverages, fortified wine, and unfortified wine products are processed by the Product Compliance Section. With over 100,000 wine and beer products for sale in North Carolina, the staff in the section stay busy ensuring breweries, wineries, wholesalers, and non-resident suppliers' products are in compliance.

LEGAL

The ABC Commission Legal Section collaborates with law enforcement agencies to help safeguard the public. While sworn law officers do the enforcement, the ABC Commission utilizes suspensions and financia penalties to ensure that permit holders that have violated ABC laws are held accountable.

Each month, the ABC Commission meets to review cases where businesses can pay a fine or have their permits suspended. The ABC Commission sets and enforces administrative penalties for alcohol-related violations to reduce potentially dangerous behavior and ensure compliance with state regulations. In its Marc 2020 report to the General Assembly, the Performance Evaluation Division directed the ABC Commission to share how well it is accomplishing these goals by reporting the total percentage of permittees committing a violation and the repeat offense rate. In FY2O, the ABC Commission received violation reports for approximately 4% of active ABC permit holders (retail and commercial). The Commission received a second violation report for approximately 0.4% of active permit holders.

North Carolina's ABC Laws are found in Chapter 18B of the NC General Statutes. The ABC Commission's Rules are found in Title 14B, Chapter 15 of the NC Administrative Code. On July 29th, 2019, Governor Cooper signed SL 2019-183 (S290) into law, making various revisions to the ABC laws of NC. Some examples of these changes are:

- Allow distilleries to obtain On-Premise retail permits
- Allow ABC boards to conduct in-store spirituous liquor tastings
- Require that local ABC boards fulfill special order requests
- Allow two alcoholic drinks to be sold to one customer at a time (if drinks are beer or wine and sale does not take place at or during a college or university event)
- Allow sale and consumption of alcohol at bingo games
- Restrict creation of new ABC systems (boards)
- Create a "Common Area Entertainment" permit
- Create a "Delivery Service" permit

Throughout FY2O, the ABC Commission has worked with stakeholders throughout North Carolina to establish and modify administrative rules where necessary to appropriately implement these legislative changes. For the 2019 legislative session, the Commission has identified 17 separate sets of rules that may be needed related to this legislation. This rulemaking process is ongoing.
